## **Split**

## The Ghost Inside

Another crack in the ice under my feet Another cloud in the sky In the shadow of an unseen enemy But I'm not ready to die

Am I paranoid? Can't trust my eyes So close to giving up Fear on overdrive

It's a vicious cycle
Got me spinning in a downward spiral
(Am I losing it?)
Vicious cycle
Inescapable paranoia
A threat on every side

A threat on every side

Another day looking over my shoulder Another sleepless night Losing my hold on reality My world is starting to slip Am I losing it?

Am I paranoid? (Am I paranoid?)
Can't trust my eyes
The fear is winning
And it drags me down to another

Vicious cycle
Got me spinning in a downward spiral
(Am I losing it?)
Vicious cycle
Inescapable paranoia
A threat on every side

Free fall
Devolve
Vicious cycle
Inescapable paranoia
A threat on every side

I feel my sanity split I'm fucking losing it

Another crack in the ice under my feet Another cloud in the sky In the shadow of an unseen enemy I feel my sanity split I'm losing it
