

Wrath

The Ghost Inside

I pulled you out from a burning wreck
But I'm the one with the broken neck
I took a chance and let you in
But it meant nothing in the bitter end

As above, so below, and now you know
You can't make me kneel
Tell me, how does it feel
When you play God?
Tell me, how does it feel
When you play God?
I know your wrath isn't real
You thought you'd leave me for dead
Just know there's consequences
When you play God

Shadowboxing with my own fists
You're placing bets on every miss
I saved your life, tied the tourniquet
I should've let it bleed out on the pavement

As above you make me feel so below
I've had enough, and I hope you know
That your fate is sealed
Tell me, how does it feel
When you play God?
Tell me, how does it feel
When you play God?
I know your wrath isn't real
You thought you'd leave me for dead
Just know there's consequences
When you play
When you play God

The only way to heal is to hurt more
The only way to heal is to hurt more
The only way to heal is to hurt more
I'll embrace the pain, so you should brace for
War

How does it feel
When you play God?
How does it feel
When you play God?
How does it feel
When you play God?
How does it feel
When you play God?
How does it feel
