

Time will tell, the day will show
Some hang on, but most, let go
It's hard to tell the difference, though
When you see them from the road

Oh, Dirigo
Oh, Dirigo

Come on Texas, show me where your lines are hiding
Seems like your roads never end
We're homesick and tired
Tryin' to keep this thing flying
Onward and upward again
Oh, Dirigo

The moon and I, we're best friends now
I raise her up and I lay her down
She keeps me singing my joyful sound
To bring you back around

Oh, Dirigo
Oh, Dirigo

Come on Texas, show me where your lines are hiding
Seems like your roads never end
We're homesick and tired
Tryin' to keep this thing flying
Onward and upward again
Onward and upward again

Oh, Dirigo
Oh, Dirigo

Come on Texas, show me where your lines are hiding
Seems like your roads never end
We're homesick and tired
Tryin' to keep this thing flying
Onward and upward again
Onward and upward again
Onward and upward again
Dirigo
