

## In Deep

### The Ghost Of Paul Revere

So long I've been out here treading water  
I'd sink just to prove I didn't care  
Far down in the quiet and the darkness  
So long since I've come up for air

You're a light sweeping over the harbor  
You came and you pulled me back to shore  
I'll build a frame for your foundation  
Let's go inside and let's close the door

She wants to spend her days in the garden  
She's so tired of this bullshit she could sleep  
She's my daisy  
She's no rose  
Man she lifts me off my toes  
And as far as these things go  
I'm in deep

I can't say that leaving's gotten easy  
It don't change how you stay on my mind  
You know that your heart is where my home is  
I know I'm coming back home every time

Well she wants to spend her days in the garden  
She's so tired of this bullshit she could sleep  
She's my daisy  
She's no rose  
Man she lifts me off my toes  
And as far as these things go  
I'm in deep
