

How Could This Be Wrong

The Glitch Mob

Hear you like a wave washing over me
It's like you call my name and I won't tell no one
They say you're going down, I hear you call my name
I heard you're going down

[Chorus]

I'm thinking I heard you break like a child
And it feels so right, so right
How can this be wrong?
And you break like a child
And it feels so right, so right
How can this be wrong?

[Post-Chorus]

How can this be wrong?
How can this be wrong?
How can this be wrong?
How can this be wrong?

[Verse]

Hear you like a wave washing over me
It's like you call my name and I won't tell no one
They say you're going down, I hear you call my name
I heard you're going down

[Chorus]

I'm thinking I heard you break like a child
And it feels so right, so right
How can this be wrong?
And you break like a child
And it feels so right, so right
How can this be wrong?

[Post-Chorus]

How can this be wrong?
How can this be wrong?
How can this be wrong?
How can this be wrong?
