

Come Down

The Glorious Sons

Hey baby, it ain't that late
We can get breakfast if you stay awake
We got your daddy's credit card
C'mon let's get high

Don't give up now, for God's sakes
I ain't sleeping when we're breaking on the edge of a date
Don't you want to make this feeling last a while

You got the money, and I've got the heart
I know a guy that delivers to these parts
So don't you come down on me
Don't you come down on me
Don't you come down on me, tonight

One more for the road, kid
Let's go down to the water and get out of our heads
Standing by the shore, you can hear the lake breathe

The feeling takes you hostage
Rushing from your heart into the palm of my hands
We can make this little prison city feel free

You got the money, and I've got the heart
I know a guy that delivers to these parts
So don't you come down on me
Don't you come down on me
Don't you come down on me, tonight
We're gonna be just fine

The sun's going down on the city again
Don't it look lonely
I don't wanna feel lonely
There you go fading on the edge of the bed
Lookin' so lonely
I don't wanna feel lonely
So don't you come down on me
Don't you come down on me

You got the money, and I've got the heart
I know a guy that delivers to these parts
So don't you come down on me
Don't you come down on me
Don't you come down on me, tonight
We're gonna be just fine
