

I'm On Your Side

The Glorious Sons

There's no reason to think, there's no use in wondering why
Good times or bad they're just old days all gone by
It got away from us but make no mistake my love
I still got you

All our bad decisions, our pretty little lies
I'm happy that we tried, happy that we tried
I'm on your side
If you ever need a friend, I'll be there until the end
There until the end
I'm on your side, I'm on your side

If you're tired, if you're gone, if you feel like breaking down
I can pick you up or lay there with you on the ground
It got away from us but make no mistake my love
I still got you

All our bad decisions, our pretty little lies
I'm happy that we tried, happy that we tried
I'm on your side
If you ever need a friend, I'll be there until the end
There until the end
I'm on your side, I'm on your side
I'm on your side, I'm on your side

When they call my name and I'm walking on the edge of the darkness
Will you sing songs for me?
Like I sang songs for you
Will you sing songs for me?
Yeah I sang songs for you
And I still got you

All our bad decisions, our pretty little lies
I'm happy that we tried, happy that we tried
I'm on your side
When gets a little rough and it all comes apart
And you feel a little dark
I'm on your side, I'm on your side
I'm on your side, I'm on your side
