

Josie took a cab out of town  
And then she turned it around  
She said "they'll never let me leave this place"  
She gave the cabbie her money  
And said "don't look down"  
He didn't have a clue what she was talkin' about

All the locals know her as Jo  
She drinks Manhattans and wears gentlemen's clothes  
She likes to get high when she's low  
And break the hearts of boys for the fun of it all

Josie rides closely to the line  
She's high and, she's tryin' to survive  
Born with a little bit of trouble in her eyes  
Josie rides closely to the line  
Go Josie go, go Josie go

Johnnie cut a deal for an album, that he never put out  
He's got a place and a bed, for when he's coming down  
Josie sees something, that he don't see in himself  
And now she looks the other way, when he's fucking around

All the locals say they don't know  
Why she lives so fast, and she moves so slow

Josie rides closely to the line  
She's high and, she's tryin' to survive  
Born with a little bit of trouble in her eyes  
Josie rides closely to the line  
Go Josie go

It's okay, don't change  
Just throw it all away  
It's okay, don't change  
Just throw it all away  
Go Josie go, go Josie go  
Just throw it all away  
It's okay, don't change  
Go Josie go
