

Man Made Man

The Glorious Sons

All in all the heart is black when the dirtiest things are the best that you have

You gotta g-g-g-g-get a taste and then get far away

I was born kicking mad I had my mothers thunder in my cries

As I grow older I hope my fathers calm comes over the storm in my eyes

You had to do it the hard way, baby do me better now

There ain't no price that you won't pay, baby do me better now

I stood between the light and the dark and let the shadow take over my heart

I had to g-g-g-g-get a taste of both sides anyway

But in the shade it starts to get hard to keep telling the two apart

There's nothing harder there's, there's nothing longer than a dark day

You had to do it the hard way, baby do me better now

There ain't no price that you won't pay, baby do me better now

There ain't no price that you won't play

Man made man [x4]

I stood between the light and the dark and let the shadow come over my heart [x3]

I stood between the light and the dark...

Man made man [x8]
