

# Speed of Light

The Glorious Sons

One, two, three, four

Open your door, cars fly by  
Down at the corner store the clerk's got a black eye  
Junkies wait underneath his sign  
Easy through the crowd, don't give 'em a dime  
Take a left on Wilson while the sirens wail  
Mother covers daughter's ears with her own pigtailed  
Up at the church through electric eyes  
Down on heavy bells one man cries

I keep up with the speed of light  
No one can see but I'm burning bright  
I didn't choose to take the ride  
I keep up with the speed of light, alright

Duck 'round the corner, into the attic  
Couple kids from the mountain makin' out in the valley  
Dusk comin' over like you seen it before  
It's blue and it's red and it's yellow and it's orange  
There's colors you can't name, things you'll never change  
Blocks in the city that'll never rearrange  
Your crying does no good, neither does your shame  
There's a bigger heart beatin' than you can understand

I keep up with the speed of light  
No one can see but I'm burning bright  
I didn't choose to take the ride  
I keep up with the speed of light, alright

There are forces at work here  
That we can't control, my dear

There are forces at work here (I keep up with the speed of light)  
That we can't control, my dear (I keep up with the speed of light)  
Look me in the eyes, my dear (I keep up with the speed of light)  
And there are forces at work here, yeah (I keep up with the speed of light)

I keep up with the speed of light  
No one can see but I'm burning bright  
I didn't choose to take the ride  
I keep up with the speed of light  
I keep up with the speed of light  
No one can see but I'm burning bright  
I didn't choose to take the ride  
I keep up with the speed of light, alright
