

Help Or Something

The Go-Betweens

What makes you cry
Brings those tears to your eyes
And what makes you run
Up and down with all those guys

Just stay stay stay
Stay stay stay
To help or something, anything
Help or something, will come along
Help or something, if you're strong
Help or something

And I think you'll find
That new streets can be kind
So don't turn around
Because of the things
You can't find

Just stay stay stay
Stay stay stay
To help or something, anything
Help or something, will come along
Help or something, if you're strong
Help or something

What makes you cry
Brings those tears to your eyes
And when will you know
That its not worth it now

Just stay stay stay
Stay stay stay
To help or something, anything
Help or something, will come along
Help or something, if you're strong
Help or something

Just stay stay stay
Stay stay stay
To help or something, anything
Help or something, will come along
Help or something, if you're strong
Help or something

Just stay stay stay
Stay stay stay
Stay stay stay
Stay stay stay
