Stuck in My Car

The Go-Go's

Somewhere the sun is shining
Somewhere the moon is rising
I'm sitting here
Somewhere someone is laughing
Somewhere something is happening
I'm dying here
Let's go Let's go

Stuck in my car trying to get to you Stuck in my car nothing I can do Turn the radio up and scream along Stuck in my car stuck in my car

Slow motion disaster
Wish I could go faster
I'm standing still
I know the world is spinning
But it never brings me any
Closer, closer to you
Let's go, let's go

Stuck in my car trying to get to you Stuck in my car nothing I can do Turn the radio up and scream along Stuck in my car stuck in my car Come on come on

Oooh get me out of here Oooh I gotta go I gotta go I gotta go
