The Go! Team

And it's us guys writing down a funk rhyme  
And this is how we introduce them one at a time  
We got the feel good vibe to make the place jam  
With a freaky kinda music, you can't understand  
It's neither here nor there, but shake your derriere  
And we in control of the whole damn place  
So come on everybody let's rock this break!  
Now... When we do our thing, it's an original groove  
Shake it back, shake it forth, we wanna see you move  
And if you didn't know about us then get into the flow  
Brand new on the scene, it's the Team called Go!  
It's fresh, so heavy, hear it breaking down  
Hear the beat still rocking everyone around  
You know we're sure to please you no matter what you do  
No matter where you from, you'd better hear the truth  
Now you know our names and you've been to the show  
And the talent we got will shake you down to the bone  
And we in control of the whole damn place  
So come on everybody, let's rock this place.  
Hit it!
