The Go! Team

Hear me  
Rock  
Shock  
Interplanetary  
Gonna rhyme – so notepads at the ready now  
Don't forget it  
Baby I'm kinetic  
Here comes my bulletin  
Call me when you get it

Galaxies  
Galaxies  
Got em all aligned  
Made a universe to my design  
On the hour  
On the hour  
Threw a meteor shower  
Bringing haleys comet right on time

Down to earth  
It's my turf  
But from where I am  
I can see the Nile, the Hoover Dam  
From Zaire  
To Korea  
Over Tanzania  
Saw the cherry blossom in Japan  
Now

Flash  
Dash  
I'm a constellation  
Super educated, dedicated, revelation  
Well I, well I  
Maybe braggadocios  
Hell, I'm a gemini  
Baby, I can't help it

Boom  
Whack  
Got ya seeing double  
A supernova  
Saving me the trouble  
Yeah  
It's my flare, boy  
Solar radiation  
Nothing compares so  
Sit and watch me take it

Outta here  
Outta here  
Coming loud and clear  
I talk a lot when there's something to say  
All the way  
All the way  
Cross the milky way  
Hear my dictionary ricochet

Side to side  
Side to side  
Speakers left to right  
Stereo blow meteorite  
Use a word  
Use a word  
What I say you like  
Got ya round me like a satellite  
Now

Flash  
Dash  
I'm a constellation  
Super educated, dedicated, revelation  
Well I, well I  
Maybe braggadocios  
Hell, I'm a gemini  
Baby, I can't help it

Well...  
Flash  
Dash

Super educated, dedicated, revelation

Maybe braggadocios  
Hell, I'm a gemini  
Baby, I can't help it

Double s, yes  
Teaching for the test  
Got ya rattled, stuttering your step  
Celestial, mercurial, fantastic, astrophysical  
Elastic, mathematical, impossible, so radical

Flash  
Dash  
I'm a constellation  
Super educated, dedicated, revelation  
Well I, well I  
Maybe braggadocios  
Hell, I'm a gemini  
Baby, I can't help it

Hear me spell it out  
The what, where, when, why and how  
Gravity  
Gravity  
Ain't my policy  
Honey, do I really need it now?

Geminis

The what, where, when, why and how  
Double quick
