

# We Do It But Never Know Why

The Go! Team

Don't say that we can't  
Just when we were getting near  
Don't ask where it went  
We're right here

Were you really best with me?  
Was I better off with you?  
Was this more than just  
Making do?

What'll it be?  
Just let me know  
Say the word and we'll never be lonely  
What'll it be?  
Just let me know  
Say the word and we'll never be lonely

Always looked for something  
Something making it enough  
Stay and let us find  
If that's us

What'll it be?  
Just let me know  
Say the word and we'll never be lonely  
What'll it be?  
Just let me know  
Say the word and we'll never be lonely

Holding onto whatever is making us try  
Say we're better together, then let it pass by

We do it but never know why  
We do it but never know why  
We do it but never know why  
We do it but never know why

Always somewhere near  
Always somewhere further on  
What if it was here  
All along?

This time we'd do better  
Let us try and find out how  
If there's half a chance  
Tell me now

What'll it be?  
Just let me know  
Say the word and we'll never be lonely  
What'll it be?  
Just let me know  
Say the word and we'll never be lonely

Holding onto whatever is making us try  
Say we're better together, then let it pass by

We do it but never know why  
We do it but never know why  
We do it but never know why  
We do it but never know why

So could it really be  
You're thinking what I'm thinking?  
It's like when you take a mirror away  
And the room looks strange  
Just say the word and we try again tomorrow  
'Cause you know what they say  
The thing about looking backwards is  
You know what you're going to see

What'll it be?  
Just let me know  
Say the word and we'll never be lonely  
What'll it be?  
Just let me know  
Say the word and we'll never be lonely
