

Mother

The Golden Filter

Goodbye mother
It's time mother
Let go, I know
I tried mother

The sinking star I'm in too far
Let go I know mother
Please lift me upon your throne
I break your heart
you break my bones
And should I live
Out far beyond
Mother will you take me home

Goodbye forever
My crime i never
Released the trigger
I cried mother

The sinking star I'm in too far
Let go i know mother
Please lift me upon your throne
I break your heart
You break my bones
And should I live
Out far beyond
Mother will you take me home
