Web Before You Walk Into It

The Gourds

There's a spend o time
Disconnected on yer line
We stay up all day
Just like the sun

Everybody will go crazy
When the moon messes up
You bought the last bottle last time, remember?

I don't need no doctor Fer all this blood We sleep all day Like coins in the mud

Ain't much t'this stuff when you look into it No way to see the roots before you chew it The web before you walk into it

Roll the glue in balls Dead spiders and dead skin Lover in the hole Musics in the bowl

you balt th' las baltle las tam Amember?
