

## Face The Music

The Grass Roots

(Face the music and hear clapping)  
(Face the music) and hear the message now  
'Cause we can work it out, whoa, yeah

Now, we've been runnin' and hidin'  
On the desert of our own gloom  
And we've been caught in the cobwebs  
In the darkness of our own rooms  
But we've been layin' the blame on  
Anyone who sings a different tune

Because it's so hard, it's so hard to  
(Face the music and hear clapping)  
(Face the music) and hear the message now  
'Cause we can work it out, whoa, say yeah

Now, we've been walkin' so blindly  
Down a road that's long and hard  
We could get on the right road  
If we clean up our own backyard  
'Cause we've been wrongly accusin' everyone except ourselves

Because it's so hard, it's so hard to  
(Face the music and hear clapping)  
(Face the music) and hear the message now  
'Cause we can work it out, whoa, yeah

Because it's so hard, it's so hard to  
(It's so hard, it's so hard to)  
(It's so hard, it's so hard to!)  
(Face the music and hear clapping)  
(Face the music) and hear the message now  
'Cause we can work it out, whoa, yeah

(Face the music and hear clapping)...
