

## House Of Stone

### The Grass Roots

You can build your house out of bricks  
You can build your house out of stone  
But as likely as you put it on the dirt, my friend  
It's likely it'll fall on down

Well, you can build it high as a mountain  
Well, you can build it thick as a wall  
But as surely as you put it on the dirt, my friend  
It's gonna fall, fall-fall-fall

Some men work on a railroad  
And some men they work in a store  
And some figured out a long time ago  
They just will not work at all

This gloating leads me to glory  
Despising leads me to home  
Don't ask my woman where I'm going  
I don't believe she knows I'm gone
