

## Mirage

The Grass Roots

Out in the night, I saw a shape in the shadows  
Standin' alone as moonlight danced on her skin

The air was electric and warm  
With a stillness the waits on a storm  
I was caught by her eyes  
And drawn like a leaf on the wind

(Ooh... mirage) I touch you but I just can't reach you  
(Ooh... mirage) I touch you but I just can't hold you  
Mirage

Movin' as one into the heart of the darkness  
Two silhouettes locked in the arms of the night

As the silent stars looked down  
We melted to the ground  
Every woman in the world  
Stared at me through her eyes

(Ooh... mirage) I touch you but I just can't reach you  
(Ooh... mirage) I touch you but I just can't hold you  
Mirage

All through the night we followed every desire (all through the  
night)  
But the dream died hard with the dawn, I just couldn't hold her  
(hold her)  
She's just a mirage in the desert of the night

(Ooh... mirage) I touch you but I just can't reach you  
(Ooh... mirage) I touch you but I just can't hold you  
...
