

(You Gotta) Live For Love

The Grass Roots

You don't love me, baby, like I think you really should
You gotta try it, baby, before you say that it's no good

You gotta live the way that I live
You gotta love the way that I love
You gotta feel the way that I feel about you

You gotta live for love, it's the only thing worth livin' for
Why not try it my way, we tried it your way once before

You gotta live the way that I live
You gotta love the way that I love
You gotta feel the way that I feel about you

You gotta live the way that I live
You gotta love the way that I love
You gotta feel the way that I feel about you

You gotta live the way that I...
You gotta love the way that I...
You gotta feel the way that I...
You gotta live the way that I...
Gotta love the way that I...
Gotta feel the way that I...
