

# You Might As Well Go My Way

The Grass Roots

Well, if you really want this and you really want that  
You gotta have the things that everybody dreams of, baby  
You might as well go my way

And if you gotta go here and you gotta go there  
You don't wanna be alone waitin' by the telephone, baby  
You might as well go my way  
Uh-huh, you might as well go my way

You know just what everybody's doin'  
You know what makes the world go 'round  
I'll show you things that you've never seen  
Things that nobody has found

If you really want this, you really want that  
You gotta have the things that everybody's dreamin' of, baby  
You might as well go my way  
Oh yeah, you might as well go my way

Mmm, you know what everybody's doin'  
You know what makes the world go 'round, girl  
I'll show you things that you've never seen  
Things that nobody has found

Oh, if you gotta go here, you gotta go there  
You don't wanna be alone just waitin' by the telephone, baby  
You might as well go my way  
Uh-huh, you might as well go my way  
Oh yeah, you gotta travel my way  
Mm-mmm, you might as well go my way
