Paradise

The Gray Havens

Heard my name called like a song to say it's time
Comin' from somewhere now out across a great divide

Should I run, leave it all or stay behind?
You never know, maybe blue flowers grow on the other side

'Cause all this time
And still I can't get over dreaming of
Paradise
Just say I'm getting closer
'Cause I'm longing to find
Find home
Find home

Help me catch that dream; help me now, don't say it's gone
And steady that starlight, and bring me back where I belong
Where I belong

'Cause all this time
And still I can't get over dreaming of
Paradise
Just say I'm getting closer
'Cause I'm longing to find
Find home
Find home

'Cause there's gotta be somewhere I've gotta be going that's better t
han this
Yeah, I only know I gotta keep going to find what I missed
There's gotta be somewhere I gotta be going that's better than this
(See the starlight on the cold nights)
(In the broad skies when the moon goes down)
(Didn't see it right for a long time)
(Maybe tonight I could find out how)
Yeah, I only know I gotta keep going to find what I missed
(See the starlight on the cold nights)
(In the broad skies when the moon goes down)
(Didn't see it right for a long time)
(Maybe tonight I could find out how)

'Cause all this time
And still I can't get over dreaming of
Paradise
Just say I'm getting closer
Say I'm going to find
Find home
Find home
Find home
Find home
