

# Just Push Through It

The Gregory Brothers

Come on, everybody  
We're more than halfway  
Just push through it  
Go, go, go  
That's it-  
I can break out  
You can do it  
You compute, we both execute  
You compute, we both execute  
Even when it comes time  
We won't hesitate to let it shine  
Come on, everybody  
We're more than halfway  
Just push through it  
Push through it

Our strategy should be-ee-ee  
No more screechy, please  
No more screechy, please [\*screech\*]  
Dark humor is the way  
Some people cope with trageday  
Liar, liar, pants ablaze  
When Four comes back  
We'll just be doing more math  
More subtraction, graphing  
Subtraction, graphing the Y-axis  
Whoever gets the most votes  
Will leave the show  
Will leave the show

Come on, everybody  
We're more than halfway  
Just push through it  
Go, go, go  
That's it-  
I can break out  
You can do it  
You compute, we both execute  
You compute, we both execute  
Even when it comes time  
We won't hesitate to let it shine  
Come on, everybody  
We're more than halfway  
Just push through it  
Push through it

I totally deserve this treasure  
Keep my secrets, remember?  
Did you just scan my brain?  
I sure did  
Hooray  
They said the things they did  
Because they knew  
Ha! I played a joke on you  
Gelatin and Lollipop  
Gelatin and Lollipop  
Gelatin and Lollipop

Gelatin and Lollipop  
Loser's a great guy  
A fantastic guy  
But look at you and me  
We've got a whole BFDI

Come on, everybody  
We're more than halfway  
Just push through it

Go, go, go  
That's it-  
I can break out  
You can do it  
You compute, we both execute  
You compute, we both execute  
Even when it comes time  
We won't hesitate to let it shine  
Come on, everybody  
We're more than halfway  
Just push through it  
Push through it  
Push through it
