

Space Was Cool

The Gregory Brothers

Space was so cool
So cool
But it won't even live in a memory
Universe unspooled
So cruel
To be leaving with only a melody
So pretty, what a pity

There were billions and billions of stories
And infinite, infinite stars
We did our best to hold it together
But now the seams are all pulling apart

Space was so cool
So cool
But it won't even live in a memory
Di-di-di-di-di-i-i-i-i
Li-di-di-di-di-di
La-da-di-di-di-di-di-di-di
It was so pretty, what a pity

If there was a way
That I could change
All that's been wrecked
Rewrite the regrets
Let's leave no stone unturned
Let's stay bright 'til we're burned

It's so cool
So cool
And so pretty
