

# VP Debate Highlights Songified

The Gregory Brothers

Biden

Ryan

Their ideas are old  
And their ideas are bad  
Obama promised hope and change, turned his campaign  
Into attack, blame, and defame  
This is a bunch of stuff  
This president doesn't bluff  
We've gotta tackle this debt crisis  
Before it tackles us

Do you think America should promote global peace?  
Or should we chill out at home with a bowl of frosted wheats?

We will not allow the Iranians to get a nuclear weapon  
They're moving fast toward a nuclear weapon  
They're spinning the centrifuges faster  
They don't have a weapon to put uranium into  
They are not changing their mind  
That's what we have to do is change their mind  
You have to have the Ayatollahs change their minds

What we don't wanna do is lose the gains we got in Afghanistan  
Fellas, we're leaving  
We've trained you, we're leaving  
We don't wanna give our allies  
Reason to trust us less  
Let's all calm down a little here  
Step up  
We've trained you, we're leaving

Their ideas are old  
And their ideas are bad  
Obama promised hope and change, turned his campaign  
Into attack, blame, and defame  
This is a bunch of stuff  
This president doesn't bluff  
We've gotta tackle this debt crisis  
Before it tackles us

Tell us how you'd straighten the budget out  
And speak on an 8th grade level so we know what you're talking about

They talk about this recession if it fell out of the sky  
Like oh my goodness, where did it come from?  
It came from this man voting to put two wars on a credit card  
But we're going in the wrong direction  
Look at where we are, barely limping along  
Stop talking about how you care about people  
Show me something, show me a policy

We face a very big choice  
What kind of country are we going to be?  
What kind of country are we going to give our kids?  
What kind of country?  
What kind of country?

My friend recently said thirty percent of the people are takers  
These people are my mom and dad  
These people are my neighbors

Time's up  
Any last words?  
Now's your final chance to get yourself heard

The counter works the same every year  
It does work the same every year  
It's warm or it's not
