

ALIENS

The Griswolds

I don't mind you say it's just a matter of time
44 reasons but I got nothing else on my mind

I can't change it, that smile upon face
Want to break it
And I'll fake it
It's harder than you know
And you know

People fuckin' bore me
Just say that you don't know me
Ya treat me like love sick alien
Feed me paranoia
And say that I'm below ya
Just leave me with the spaced out aliens
Aliens, aliens

In the city lights
Running downtown
Looking like a murderer
Oh no slowly
I won't give you up
Just say my name

I can't change it, that smile upon your face
Want to break it
And I'll fake it
It's harder than you know
And you know

People fuckin' bore me
Just say that you don't know me
Ya treat me like love sick alien
Feed me paranoia
And say that I'm below ya
Just leave me with the spaced out aliens
Aliens, aliens, aliens, aliens

I'm not leaving
Don't stop breathing
Ah ah ah...
We need saving
Don't stop craving
Ah ah ah...
Aliens

(Can ya fake it?
The smile on your face want to break it)

People fuckin' bore me
Just say that you don't know me
Ya treat me like love sick alien
Feed me paranoia
And say that I'm below ya
Just leave me with the spaced out aliens
Aliens, aliens, aliens, aliens
