

## Dream World

## The Growlers

What's tomorrow if no one's leading  
Cheap loving is so deceiving  
I can't follow you  
Call it treason  
I won't fight we found a reason

Not as scared as I was before  
Not afraid of love anymore  
It's a bore but I don't get sore  
Still not enough time to wonder what for

Choosing a Dream World  
Where a heart plus a heart can equal love  
Go make your own world  
If there's not enough to choose from

Not hiding, not leaving  
I just needed to find a reason  
I don't buy in call it treason  
I can't sell what I don't believe in

Not as scared as I was before  
Not afraid of not knocking on your door  
Forget the score, there's gotta be more  
Looking for love in the middle of a war

Choosing a Dream World  
Where a heart plus a heart can equal love  
Go make your own world  
If there's not enough to choose from

When love is a treasure  
That's the world I'll choose to remember  
Make a dream last forever  
Close your eyes but never surrender

Choosing a Dream World  
Where a heart plus a heart can equal love  
Go make your own world  
If there ain't enough to choose from

Choosing a Dream World  
Where a heart plus a heart can equal love  
Go make your own world  
If there's not enough to choose from

When love is a treasure  
That's the world I'll choose to remember  
Make a dream last forever  
Close your eyes but never surrender
