

Feelin' Good

The Growlers

You bang other chicks
Sometimes you hide it
You take anything
If you don't have to buy it

You have no age
And bonds for friends
Do whatever it takes
So it never has to end

Just 'cause it feels good
Doesn't mean it's right
I know it sounds like it should
But that just is a lie

Life has consequences
For all our actions
No one should suffer
Just for your satisfaction

You think that love's a trap
And dying young is rad
'Cause dying's oh so sad
And you don't wanna deal with that

The bender never ends
The feelings never sink
It's better to pretend
That comfort's in your dreams

Just 'cause it feels good
Doesn't mean it's right
I know it sounds like it should
But that just is a lie

Life has consequences
For all our actions
No one should suffer
Just for your satisfaction

Feelin' good
But you've been stealing my feelings
When you're feelin high
Somebody else is low

Feelin' good
Being left by your feelings
But your feelings can't think
They don't know where to go

You'll never wake up
I'll never calm down
To do what you want
And like what you do

You'll never look back
You'll never come around

Then what you tell yourself
I'm turning to the truth

Just 'cause it feels good
Doesn't mean it's right
I know it sounds like it should
But that just is a lie

Life has consequences
For all our actions
No one should suffer
Just for your satisfaction

Feelin' good
But you've been stealing my feelings
When you're feelin high
Somebody else is low

Feelin' good
Being left by your feelings
But your feelings can't think
So they don't know where to go

Just 'cause it feels good
Doesn't mean it's right
I know it sounds like it should
But that just is a lie

Life has consequences
For all our actions
No one should suffer
Just for your satisfaction
