

World Unglued

The Growlers

So agnostic, it's toxic
You know what I mean
Caught in a fever though she acts serene
The static coaster on her back
Attracted to her scream
Feasting on her vacant dream
Though she rarely dreams

Lady it ain't where we come from
Or where we are right now
It's where we're going to
Your family's insane
You never picked this town but now it's all on you
To let the world unglue

So she's a mannequin inside of a tube
Says people are freaks and the world is doomed
But if you get a glimpse into her gaze
You'll see the stars shining
Underneath the haze

Lady it ain't where we come from
Or where we are right now
It's where we're going to
Your family's insane
You never picked this town but now it's all on you
Just let the world unglue

Too tied uptight, far too nearsight
Step from the glass, skepticism passes
Micro, macro, psycho, aggro
Maybe we'll know, but for now we'll let it go

Too tied uptight, far too nearsight
Step from the glass, skepticism passes
Micro, macro, psycho, aggro
Maybe we'll know, but for now we'll let it go
