

Runnin' Down The Street

The Guess Who

Time after time
I played in the game
Fought in all the battles
Never once came up lame
Time marches on
And the tide recedes
Got to be somethin' somewhere
Help me fulfill my only need

Runnin' down the street
And I think I'm gonna cry
Cause I don't think I can make it
If that look is in your eyes
My my my
Whoa my my my my

Show me the way
You know I'll gladly go
Give me a headstart
I've been movin' much too slow
Trials and the errors
Of the others' game
Left me stranded now
Left me stranded but not to blame

Runnin' down the street
And I think I'm gonna cry
Cause you know I don't think I can make it
If that look is in your eyes
My my my
Whoa my my my my

There's got to be that somethin' somewhere
There's got to be someone to show me the way
There's got to be that line to follow
I think I can feel it comin' any day
Feel it comin' any day now
Feel it comin' any day now
Feel it comin' any day now

Time after time
I played in the game
Yeah I fought in all the battles
Never once came up lame
Time marches on
And the tide recedes
I know there's somethin' somewhere that help me
Help me fulfill my only need

There's got to be that somethin' somewhere
There's got to be someone who wants to show me the way
There's got to be that line to follow
I think I can feel it comin' to me any day
Feel it comin' any day now
Feel it comin' any day now
Feel it comin' any day now
