

# Till We Kissed

The Guess Who

Till we kissed, I never knew the years that I had wasted  
Till we kissed, I never knew the kisses I had tasted  
But now I see I was waitin'  
For you to come back  
I was waitin', girl  
Won't you please tell me why this took so long to begin  
Darlin', where have you been all my life?

Oh let me tell you  
Till we touched, I never knew a touch was worth revealing  
Till we touched, I never knew what life could truly be  
But now I see I was waitin'  
For you to come back  
I was waitin', girl  
Won't you please tell me why this took so long to begin  
Darlin', where have you been all my life?

Oh darlin', where have you been,  
Where ya been, where ya been when I was feelin' blue?  
Where ya been?  
Where have you been, where ya been  
Where ya been when I was needing you?

Oh where ya been, where ya been?

But now I see I was waiting  
For you to come back  
I was waiting, girl  
Won't you please tell me why this took so long to begin  
Darlin', where have you been all my life?

Oh darlin', where have you been,  
Where ya been, where ya been when I was feelin' blue?  
Feelin' blue  
Where have you been, where ya been  
Where ya been when I was needing you?

Oh where ya been, where ya been?  
Oh where ya been, where you been?  
Oh where you been, where you been?
