

We Have Met Before

The Gutter Twins

Death, I wait tonight
For your kiss, for your life
Call me back home
To your breast, to your arms

And we have met before
On these stairs, at this door
Time fades away till it's gone
Midnight and dawn

Into your arms I am yours again
Touch my cheek, I am cold
As I sleep, so I am born again
Nestled deep
All is calm

It's a masquerade

In a field of gold
On a moonlit night
It's a freefall

When she took my hand
On the silver chord
Let me in tonight
Let the feeling grow
When you turn your head
When I see the light
Will you take me home
Into Paradise?

She's all right, she's all right
She's all right with me

How long?
