

Another Try

The Happy Fits

Another day, another try
Sing your dreams a lullaby
Smoke another cigarette
Haven't hit the filter yet
When will it burn?

Don't wanna see you runnin' in circles

It's just the madness of reality
Is that nothing really matters
So through the chaos sing your melody
Let it out
You'll find everything you wanted

Another day, another try
Sing your tears a lullaby
Smoke another cigarette
Haven't hit the filter yet
When will you learn?

Don't wanna see you runnin' in circles
Don't wanna see you runnin'

It's just the madness of reality
Is that nothing really matters
So through the chaos sing your melody
Let it out
You'll find everything you wanted
You'll find everything you wanted

My thoughts recede into all my habits
A kind of freedom that's automatic
If I'm my keeper, will it matter?
Will it matter?
Does it matter?

It's just the madness of reality
Is that nothing really matters
So through the chaos sing your melody
Let it out
You'll find everything you wanted
It's just the madness of reality
Is that nothing really matters
So through the chaos sing your melody
Let it out
You'll find everything you wanted
You'll find everything you wanted
You'll find everything
You'll find everything
