

Best Tears

The Happy Fits

Shoot for the moon, dear
Straight-placed, stay grounded
Be unique, though you're the same here
Speak cise' but sounded
And you, you shouldn't stare
At the light, that's where you're going to
Just keep moving and grooving to the sound of the beat
You'll get there in time unless you stop your feet

Do smile and dry those eyes
So, all the girls and bad boys made you cry?
Well, you know, those were the best tears of your life, of your
life
Look cute in leather boots
And if makeup brings you down, just buy a noose
So at least you'll keep your head held way up high

Have some reserves, kid
Don't waste potential
Try your best, just like your father did
Success is mental
Please, show us and tell
How your life's not going straight to hell
All those jeepers and creepers wanna sit in your head
But fall out of line and you'll be shot and dead

Do smile and dry those eyes
So, all the girls and bad boys made you cry?
Well, you know, those were the best tears of your life, of your
life
Look cute in leather boots
And if makeup brings you down, just buy a noose
So at least you'll keep your head held way up high

Learn to smile as every good day goes on by
