

Do Your Worst

The Happy Fits

Do your worst
Say it first; I will reverse my face again
Hope you like the bottom where you'll

Do your worst
Well-rehearsed, repeat the verse of hate again
Right beneath the bottom where you

Wound up on the floor
Like you wanted to
Now, I thought you wanted more
Is this all that you could be?

Tell me you wanted (tell me you wanted)
Tell me you needed something more
Tell me you wanted (tell me you wanted)
Tell me you needed something more

Do your worst
Fetch the hearse, and I will curse your name, again
Meet you at the bottom where you'll

Do your worst
Drink your thirst to stop the hurt. Abate the end
Hope you like the bottom where you

Wound up on the floor (Wound up on the floor)
Like you wanted to
Now, I thought you wanted more
(Thought you wanted more)
Is this all that you could be?

Tell me you wanted (tell me you wanted)
Tell me you needed something more
Tell me you wanted (tell me you wanted)
Tell me you needed something more

Ba, da, ba, da, bye, bye, bye
Ba, da, ba, da, bye, bye, bye
Ba, da, ba, da, bye, bye, bye
Ba, da, ba, da, bye, bye

Do it right
Let it clear your head in the night 'til you wind up dead

So I found you on the floor (found you on the floor)
Like you wanted to
Now, I thought you wanted more
(Thought you wanted more)
Is this all that you could be?

Tell me you wanted (tell me you wanted)
Tell me you needed something more
Tell me you wanted (tell me you wanted)
Tell me you needed something more
