

Daytime, you know what you've done-just move along
Look past the things that you've won-just move along
Don't stop at all, don't stop at all
Don't stop at all for the world

And I will come down from the fire
Too aimless to see you were never alive
And all of the blame in the world
Won't stop it all, won't stop at all
Won't stop at all for the world

Get through the light of the day-don't ever stay
Throw all your worries away-don't ever stay
Don't stop at all, don't stop at all
Don't stop at all for the world

And I will come down from the fire
Too aimless to see you were never alive
And I will place blame on you softly and care for you often at night
'Cause darling we would never, darling we would never fight
Darling we would never, darling we would never fight

And I never knew
I never knew what you want at all
'Cause I just don't know you, I don't know you
Know at all, know at all
And I never knew
I never knew what would make you stay
'Cause I haven't seen you
In a long time, in a long time
Feel it all, feel it all
Feel at all, feel at all, feel at all

And I will come down from the fire
Too aimless to see you were never alive
And I will place blame on you softly and care for you often at night
'Cause darling I would never, darling I would never fight

And I will come down from the fire
Too aimless to see you were never alive
And all of the blame in the world
Won't stop it all, won't stop it all
Won't stop at all for the world

Darling, drink to the world
Drink up the seas and the rose and the pearls
Don't stop at all, don't stop at all
Don't stop at all for the world

Daytime, you know what you've done-just move along
Look past the things that you've won-just move along
