

## Wrong About Me

The Happy Fits

Sober, I miss the heat  
Summer's gone, like the frown that's worn  
When you're mad at me  
Space, that's all we need  
Every grain in your hourglass  
Burns as much as it cleans  
You took your car, and you drove it far  
With rotted memories  
I cannot blame, hell I'd do the same  
If it was done  
If it was done to me

Oh love, you watched me fall with ease  
I was wrong about the person  
You were wrong about me  
Oh love, you watched me fall from grace  
It was wrong of me to promise  
It was wrong of me to waste

Time, both yours and mine  
I was scared of the broken stare  
That'd cower back at me  
I didn't know myself  
How could I, I was just a child when you took to me  
Little scars turned to metal bars  
Until I wasn't free  
I wasn't brave and I hid the shame  
Like I loved it too  
For all eternity

Oh love, you watched me fall with ease  
I was wrong about the person  
You were wrong about me  
Oh love, you watched me fall from grace  
It was wrong of me to promise  
It was wrong of me to waste  
I was wrong about the person  
You were wrong about me  
I was wrong about the person  
You were wrong
