

Bad Omen

The Haunt

Oh I'm a weapon
I got a silver bullet right between my teeth
Oh I can't help it
Biting on your tongue just to watch it bleed

And I just think it's funny how the world is burning down
So worry 'bout yourself and keep my name out of your mouth
I'm a fuckin' psychopath and it's all working out
Oh, oh, oh

Don't trip 'cause I told ya
I'm a bad omen
I know there's something wrong with me
Dancing with calamity
Chaos is my inner peace
I'm a bad omen (I'm a bad omen)

Must be genetic
Been a piece of shit since the day I was born
Kinda poetic (fucking pathetic)
Breaking all the promises that I swore

And I just think it's funny how the world is burning down
So worry 'bout yourself and keep my name out of your mouth
I'm a fuckin' psychopath and it's all working out
Oh, oh, oh

Don't trip 'cause I told ya
I'm a bad omen
I know there's something wrong with me
Dancing with calamity
Chaos is my inner peace

I'm a bad omen, I'm a bad omen (omen)
I'm a bad omen, I'm a bad omen

I'm a bad omen, I'm a bad omen
I'm a bad

Don't trip 'cause I told ya (yeah)
I'm a bad omen
I know there's something wrong with me
Dancing with calamity
Chaos is my inner peace
I'm a bad omen
