

I'm Done

The Haunt

Dreaming like an inception
I keep falling awake
Can't deal with this rejection
God, I just need a break

Love burns on my skin
It hurts, I can't win
Closure is a long way from here
You turn against me
It hurts, I can't breathe
Closure is a long way from here

Have you seen yourself?
You're making me wanna run
This is bad for my health
So show me what you've done
I think you need some help
But I am not the one
I'm not your prison cell
I called it quits, I'm done

Break it all into sections
I still feel outta place
I can't stand my reflection
When all I see is your face

Love burns on my skin
It hurts, I can't win
Closure is a long way from here
You turn against me
It hurts, I can't breathe
Closure is a long way from here

Have you seen yourself?
You're making me wanna run
This is bad for my health
So show me what you've done
I think you need some help
But I am not the one
I'm not your prison cell
I called it quits, I'm done

I can see the parallels
When to whisper, when to yell
How you caught me in this spell
Hope you learn to blame yourself
I can see the parallels
When to show and when to tell
How to give back what you take
Was this all just a mistake?

Have you seen yourself?
You're making me wanna run
This is bad for my health
So show me what you've done
I think you need some help
But I am not the one

I'm not your prison cell
I called it quits, I'm done

I called it quits, I'm done
I called it quits, I'm done
I called it quits, I'm done
