

Little Like Hell

The Haunt

It'd be easier to move on with my life
If you didn't call my phone every night
And with you hopelessly tryin' to make it right
But this conversation only starts a fight

You don't love me
I'm convinced you never did

This is a little like hell
Almost romantic how
You're screaming my name like you really fuckin' want me
In a couple days, you'll be gone and you'll haunt me

This is a little like hell
Almost romantic how
You're playing these games after everything we've been through
Just know it's your fault that I'm not there with you
This is a little like hell
This is a little like hell

Isn't funny how you're just my type?
I'm addicted to chaos, so I love to fight
It's crazy, I thought you were the love of my life
But you fucked it all up with one reckless night

You don't love me
I'm convinced you never did

This is a little like hell
Almost romantic how
You're screaming my name like you really fuckin' want me
In a couple days, you'll be gone and you'll haunt me

This is a little like hell
Almost romantic how
You're playing these games after everything we've been through
Just know it's your fault that I'm not there with you

I know you tried
But all you did was waste my time
I'm so fucking tired
At least you tried
So kiss me while you sharpen your knife
This is a little like hell
Almost romantic how
You're screaming my name like you really fuckin' want me
In a couple days, you'll be gone and you'll haunt me

This is a little like hell
Almost romantic how
You're playing these games after everything we've been through
Just know it's your fault that I'm not there with you
This is a little like hell
This is a little like hell
