The Haunt

Every day that I love I get closer to you
And every day that I love I learn the truth
And every time I love my heart breaks
And every time I'm stuck
I pump the breaks and wait for you
You

Do you live for me?
Do you breathe for me?
Cause I always need more

Do you love for me?
Are you consumed by me?
Does it eat at your core?

Cause I need more
I'm sorry that I'm like that
I need more
You know I'm coming right back

Do you live for me?
Do you breathe for me?
Cause I always need more

Every night I pray for you to stay
And every breathe that I take pushes you away
Baby, don't you start acting tough
You're killing me and I can't get enough
I'd die for you
You

Do you live for me?
Do you breathe for me?
Cause I always need more

Do you love for me?
Are you consumed by me?
Does it eat at your core?

Cause I need more
I'm sorry that I'm like that
I need more
You know I'm coming right back

Do you live for me?
Do you breathe for me?
Cause I always need more

Heard ya say "just give up on love"
Why should I, when you're in my blood?
I heard ya say "just give up on love"
Why should I, when you're in my blood?

Do you live for me?
Do you breathe for me?
Cause I always need more

Do you love for me?
Are you consumed by me?
Does it eat at your core?

Cause I need more
I'm sorry that I'm like that
I need more
You know I'm coming right back

Do you live for me?
Do you breathe for me?
Cause I always need more
