

Shake

The Haunt

Gonna make you lose focus
Gonna make you feel hopeless
Gonna make you apologize for nothing
And everything
Black kiss, black eyes
I can wear the perfect disguise
Maybe make your head spin
Just right
All night

Wanna have some fun?
Baby, I'm a drug
I can be the medicine inside your veins
Breathe me in your lungs
Keep me on your tongue
I will be the hardest pill you take

Shake!
I wanna see the fear on your face
I wanna be the reason you break
Outline your silhouette
I can kill you like a cigarette
Shake!
I wanna see the fear on your face
You better start counting the days (Shake!)
'Til I outline your silhouette
I can kill you like a cigarette
Shake!

I'm gonna make you shiver
I'm gonna bring you to your knees
I'm gonna leave you paralyzed
One look, you're mine
Yeah, I'm blood red like wine
I can make your head spin
Just right
Just right

Wanna have some fun?
Baby, I'm a drug
I can be the medicine inside your veins
Breathe me in your lungs
Keep me on your tongue
I will be the hardest pill you take

Shake!
I wanna see the fear on your face
I wanna be the reason you break
Outline your silhouette
I can kill you like a cigarette
Shake!
I wanna see the fear on your face
You better start counting the days (Shake!)
'Til I outline your silhouette
I can kill you like a cigarette
Shake!
