

Spark

The Haunted

Deeper and deeper
Trapped under your skin
I bet you'd never thought you'd find me here?
I'm your designed poison
Your final disease

I've come to set your world alight
All I need is a little spark
So now that I've found you
Join me at the edge of your life
From where we can watch it all burn!

Watch it all burn
Burn! Watch it all burn

One of many voices screaming in my head
Feed the spark, and I'll make them go away
Stand firm as the flames come closer, dancing on your skin
Making sure you never feel this way again

Burn!

Harder and harder to wash it clean
All the filth I left behind
Try as you may, I just won't stop

One of many voices screaming in my head
Feed the spark, and I'll make them go away
Stand firm as the flames come closer, dancing on your skin
Making sure you never feel this way again

Burn! Watch it all burn
