

What Happened to the Love?

The Heavy

We had that thang that everybody want
Good times with a heart that will beat real strong
My time, hard to tell you give me what I want
Cause we'll make it a little love
Kick it from the night till morn

Cause you made me a believer (made me a believer)
You made feel strong
Said you made me a believer (made me a believer)
And then you made me carry on

But what happened to the love love love?
What happened to the love love love?
Tell me what happened to the love love love love love love, love?
What happened to the love love love?
What happened to the love love love?
Tell me what happened to the love love love love love love, love?

Oh I know I know that I should have seen the sign
But I knew what I was feeling
I knew when I feel you could be mine
Ah ooh ooh ooh, ah ooh
Temptation rub sin
In the eyes of the blind
So I need you be sincere
I need to stop this face from crying

Cause you made me a believer (made me a believer)
You made feel strong
Said you made me a believer (made me a believer)
And then you made me carry on

But what happened to the love love love?
What happened to the love love love?
Tell me what happened to the love love love love love love, love?
What happened to the love love love?
Tell me what happened to the love love love?
What happened to the love love love love love love, love?

Come on
What happened to the love?
Oh you made me a believer
What happened to the love?
And made feel strong
(What happened to the love?)
You made me a believer
What happened to the love?
And made me carry on
When it was all about the love love love
When it was all about the love love love
When it was all about the love love love love love love, love
When it was all about the love love love
When it was all about the love love love
When it was all about the love love love love love love, love

Oh yeah

Love love love

Can't forget about the love love love

Don't you forget about the love love love (love love love, love)

Oh no no no

Don't you forget about the love love love

Cause it's all about the love love love

You can't forget about the love love love (love love love, love)

Oh no no no

Wow

Ah ooh ooh ooh, ah ooh

Ah ooh ooh ooh, ah ooh

Alright, alright

Ah ooh ooh ooh, ah ooh
