

# I Hate

## The Hell

The force attacks with violence  
Dark and sinister in the fog  
Lost faces in the night  
It's the time for revenge

Hate and destruction  
Wish for blood  
The gate is open  
And now you'll die.

Trapped blinded gods  
Souls screaming in the oblivion  
World eternal war  
Kill and rape for fun

Hate and destruction  
Wish for blood  
The gate is open  
And now you'll die.

All I Hate comes to me  
My anger feeds up from there  
All I Hate comes to me  
My anger feeds up from there

All I Hate comes to me  
My anger feeds up from there  
All that I Hate comes alive  
I hate that you'll never die
