

Infernal Venom

The Hell

Betrayers' voices are strong
Their looks are full of hope
Into the circle of fire
They fall doomed in eternal destruction

The cure is an infernal venom
That feeds the city
'Cause now enslaved by fear
In silence they will dwell

This plague is silent
Dare not to look back
Since dead faces from the past
Are trapped inside the dark

The cure is an infernal venom
That feeds the city
'Cause now enslaved by fear
In silence they will dwell

The cure is an infernal venom
That feeds the city
'Cause now enslaved by fear
They will burn in flames
