

Want You Dead

The Hell

From the beginning I knew what my place was
In my life nothing would be disgraced

Sex every night, that's what I want
Your body and mind have changed all the
plans

Unsatisfied, you just think about time
It's hard to know, I'll make it up

Sex every night, that's what I want
Your body and mind have changed all the
Plans

You should tell me the meaning of crying all night
I don't care what you want, I just play with my band

Sex every night, that's what I want
Your body and mind have changed all the
Plans
Now, I want you dead, fuck another blind
who in hell, I'm going to find

Now, I've got my way
Your memory's dead
I'm more than alive
But still... I want you to die
