

As I wake up it's not exactly my peak
And I'm thinking how much I envy the geek

I want some diet confusion
But it's hard to come by
I drift away, not a geek is left behind now

Hey, geek, won't you help me decide
Seems so easy, you got nothing to hide
Teach me how to shrug, how to shut off my brain
How to get some other geek inside my veins

When I'm in doubt I never know what it is
Yeah, I wanna be a member now won't you help me enlist

I want some weight watchers logic
Without a twist and a turn
I can't explain baby, you can help me learn now

Hey geek, won't you help me decide
Seems so easy you got nothing to hide
Teach me how to shrug, how to shut off my brain
How to get some other geek inside my veins

I find love in every heart beat of yours
I need a guilt eliminator, 'cause i'm still not sure

I want some diet confusion
But it's hard to
combine
I drift away, now the geek is left behind now

Hey geek, won't you help me decide
Seems so easy
you got nothing to hide
Teach me how to shrug, how to shut
off my brain
How to get some other geek inside my veins

Hey geek, won't you help me decide
Seems so easy
you got nothing to hide
Teach me how to shrug, how to shut
off my brain
How to get some other geek inside my veins
