

Making Up for Lost Time

The Hellacopters

I should have told you then, what I'm telling you now
I should have found a way, but I didn't know how
Long road behind me, you know how hard I tried

Making up, making up, making up for lost time

Too many things I wish, I could try again
Too many times I say, but I just couldn't win
You gotta hope for something, the only way to get by

Making up making up making up for lost time

Better late than never, so they say
I've been waiting forever, just to have one more day,
yeah! (2x)

Oh said it's just like a game, but we play no more now,
I've been playing this game for too long now

When i find a wild thing, Oh I'm working, pass me by [??]

Making up making up making up for lost time
oh Making up making up making up for lost time
